Treating hospital

I agree that information about my illness as well as blood samples as described in the information form, may be passed on to the Liquid Biopsy project as a part of CPS-R01 so that research can be conducted on my illness. The aim of the research is to learn more about the disease in the long term. With the knowledge gained in this way, it should be possible to treat those affected better in the future.

The study was explained to me in a phone call or personal conversation and I read the information form. I had the opportunity to ask questions. I know that my participation is voluntary and that I can withdraw my consent at any time without giving reasons and without any disadvantages. I understand that I will be contacted again as soon as I am 18 years old so that I can then decide whether I want to continue participating in the study.

**CONFIRMATION OF THE REGISTRY PHYSICIAN**

I have discussed the Liquid Biopsy project as a part of CPS-R01 and the accompanying research including the patient information and the declaration of consent with the patient. All questions were answered comprehensively. I explained to the participant that participation is voluntary. I have obtained the patient's consent.
